## User journey by the Design Team of Accenture Interactive NL

2**-9** 

30 min

Difficulty
Beginner

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users.

① Phases This is a textbox	Setup Phase	Onboarding & application usage	Review of User Experience
2 Steps  Detailed actions your user has to perform	Installation of Application  Profile creation  Profile application permissions	through Profile health to required fruit to be	Answer Standard questions  Ask for possible changes that can be incorporated in the next release  Ask for possible changes that can be incorporated in the next release
Feelings  That your user might be thinking and reling at the moment	Positive atitude cautious on the habit of towards what we eat fitness and helaath basis  Need to be the nabit of the habit of eating food improving health	and share  at remembering  nutritional  values of food  value is	User feels that the rmation to improve the system good to use.
	Why use an Can this Why can't application imporve our we just	go through a information regist	re any other od in which tering in the an be made to adhe also the second tering in the an be made to adhe also the second tering in the second term in the second tering in the
